How to start planning your party

Go for a great marquee with amazing lights and one of our mobile nightclubs, then complete the experience with fantastic cocktails and our delicious food to make your party really stand out.

Marquees

A marquee is at the heart of any great party. It's really important to get the right size for your event - too small and your guests will be cramped; too big and the atmosphere can be lost. The time of year will also influence the type of marquee - domes are great during warmer months, but clearspan marquees offer better protection from the elements.

Catering

Our caterers create delicious food options: from canapés and bowl food to full sit-down meals. Your guests can also enjoy traditional street food with freshly-made stone-baked pizzas and paella. All perfect for soaking up our delicious Capability cocktails!

Entertainment

Having great acts at your event adds the wow factor to your party. From top DJs and live bands to carnival dancers, magicians, stilt-walkers and fire eaters we have plenty of exciting options to keep your guests entertained.

Party Inspiration

Whatever theme you have in mind - we can make it happen. If you need ideas and inspiration, there are plenty of examples on our [website](#) and [YouTube](#) channel.

What next?

1. Set a date!
2. Make a rough guest list - this will give you your numbers.
3. Think about your theme - Will there be one? Plenty of parties don't have a theme so don't feel you need to make your party a fancy dress extravaganza. You might just want it to be super smart and polished. Although a great theme can really make your birthday the party of the year.

4. Decide on the type of party. Are you imagining a formal sit down event with guests sat at tables eating a meal, or are you looking for a more informal affair where guests have a drinks reception before moving to cocktails, dancing and street food? This affects the size of the marquees you will need. Sit down meals need approximately twice the marquee size compared to stand up parties.
5. Food - are you a canapés type person? Do you love a reception cocktail and nibbles before sitting down to a banquet or do you prefer something more informal like bowl or street food?
6. Think about your entertainment - are you going to choose a band or a DJ, or perhaps both? Do you want to dance till dawn, or are you likely to crash and burn around 1am?

Once you have thought about all this you are ready to talk to a party planner and to get started designing your perfect Luxury Party.
